DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, 17 and 18, drawn to "Store and forward", classified in class 370, subclass 428.
 - II. Claims 9-16, 19 and 20, drawn to "Details of circuit or interface for connecting user to the network", classified in class 370, subclass 463.
2. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case, the invention of Group I is shown to store shared network information, provide access to the shared information and manage notification exchanges between sharing members of a network. Sharing members of the network such as common communications transceivers could utilize the invention of Group I without being of the form and function shown by the inventions of Group II.

The inventions of Group II show how sharing members access shared network information and exchange notifications to other sharing members. The operations of Group II can be performed in other environments, such as through a network switch or a direct connection to another sharing member, without utilizing the invention of Group I as an intermediary. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Joseph A. Scafetta on October 29, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory B Sefcheck whose telephone number is 703-305-0633. The examiner can normally be reached on 8:00am-4:30pm.
